Product Description

The gold veins in the black TruStone Wall Street Elegant ballpoint pen give it a bold and modern look. The titanium and 24kt gold fitting really complement the total look of the pen.

"TruStone" pen blanks are made by pulverizing semi precious stones into a powder and combining them with natural pigments and resins. The final product has more than 85% stone content. The blank used for this pen was turned on my lathe and was wet sanded and polished to a smooth and lustrous finish which will last for years

The pen comes with black Parker ink and refills can easily be found at office supply stores.

The pen measures 5.25 inches in length.

Impress your friends with this eye-catching pen! Or, give one as a gift to someone special or for a special occasion such as birthdays, graduations, Fathers/Mothers Day, or for employee recognition events.
