Product Description

This beautiful and elegant fountain pen was made from bronze box elder wood. The grain pattern of the wood is simply stunning. The pen styling takes inspiration from the European pens made popular by Mont Blanc with the rounded caps and ends. The pen has black titanium and fittings accented in gold. The pen has been turned narrower at the end so that the cap can be “posted” to the back of the pen when writing if desired. The pen feels good in the hand and looks classy when displayed. The German made, medium iridium nib ensures a smooth writing experience (finer

or thicker nibs can be ordered separately). The pen comes with a black ink cartridge, and refills for these universal cartridges can be found at any office supply store.

After multiple sanding and polishing steps by hand have been completed, a durable CA finish has been applied to protect the pen and for you to enjoy it for years to come.

The pen in this image is the one you will receive. You will also receive a protective velvet drawstring pouch along with your purchase, a Certificate of Authenticity, and instructions for caring for your pen. Most orders are shipped within 24 hours after purchase. Thank you for visiting!
