Product Description

The green malachite bands in this ballpoint pen give it a bold and modern look with the acrylic and chrome hardware. "TruStone" pen blanks are made by pulverizing semi precious stones into a powder and combining them with natural pigments and resins. The final product has more than 85% stone content. The blank used for this pen was turned on my lathe and was wet sanded and polished to a smooth and lustrous finish which will last for years

The pen comes with black Parker ink and refills can easily be found at office supply stores.

The pen measures 5.50 inches in length.

Impress your friends with this eye-catching pen! Or, give one as a gift to someone special or for a special occasion such as birthdays, graduations, Fathers/Mothers Day, or for employee recognition events.

What you get with your purchase:

- The pen in this image
- Free velvet drawstring pen pouch to protect your pen or to present it as a gift
- Certificate of craftsmanship and authenticity
- Instructions for caring for your pen
- 100% Guarantee
- My sincere thanks.

Thank you for visiting!
