Product Description

An exhibition piece of beautiful redwood burl was used for this pen. The red and brown grain patterns are stunning and must be seen in true light! The black and gold accents of the pen hardware complement the wood nicely as well. The cap may be screwed on to the back of the pen for storage when writing. The pen's length when closed is 5.25" and 6.25" when the cap is posted on the back of the pen.

The pen uses a Schmidt type of rollerball cartridge that ensures a smooth writing experience and refills for these universal cartridges can be found at any office supply store.

This pen went through 16 sanding applications and was finished with cyanoacrylate

(CA) that gives it a deep, mirror-like finish that holds up to scratches and will last for years.

The pen in this image is the one you will receive. You will also receive a free protective velvet pen sleeve to present as a gift or to protect your pen, plus a Certificate of Authenticity and instructions for caring for your pen. Most orders are shipped within 24 hours after purchase. Thank you for visiting!
