Product Description

This European or "Mont Blanc" style dual-twist ballpoint pen pen is made from beautiful alumilite acrylic and black titanium hardware. The intricate swirls remind me of the photos of distant galaxies. This is one of the few pens in this style that carry the popular Parker type refill (rather than a Cross type refill). What is also unique is the clip which has a roller at the end. The finish was wet-sanded with progressively finer grits and then polished to a high luster that will last for years.

The length of the pen is approximately 5.625 inches. The pen in this image is the one you will receive. You will also get a free velvet protective pen sleeve, certificate of craftsmanship and authenticity, my 100% guarantee and my sincere thanks for being a customer!

Thank you for visiting.

Product Attributes

- Dimensions: N/A
- Weight: 10 oz
- Materials: Acrylester, acrylic, Chrome, gold, Inlace Acrylester
