Product Summary

Handmade Magnetic Vertex Fountain Pen in Colorful Acrylic

Product Description

The hexagon designed Chrome-plated hardware on this Vertex Roller Ball or Fountain pen not only takes on the character of ruggedness and utilitarian-style...It is stylish, stately, charismatic yet bold and pleasing to use. But what makes this pen truly mesmerizing is its unique magnetic cap. The cap easily posts onto the nib and back of the pen without the use of threads. And the long single tube design allows you to really show off the beautiful colors of the acrylic, and they remind me of looking through a kaleidoscope. . The fountain pen comes with a German made, medium iridium nib to ensure a smooth writing experience (finer or thicker nibs can be ordered separately).
